This is a BMW iX3 M Sport Pro, a fully electric car registered by ourselves in 2024. With only one previous owner (JKC) and very low mileage, this vehicle is ready for its next adventure. The M Sport Pro trim adds a touch of sporty sophistication to this already impressive vehicle. The iX3 boasts a substantial 80 kWh battery, providing a maximum range of 288 miles when new, meaning you can embark on longer journeys with confidence. The generous 510 litres of boot space means that you don't have to compromise on luggage capacity, offering more room than similar vehicles. Charging is convenient and flexible, with a full charge achievable in 11 hours 20 minutes using a 7kW home charger.
