**£19950**

This is a 2021 Tesla Model 3 Long Range, an all-electric car with four-wheel drive. The vehicle comes with a full service history and the highly desirable Full Self-Driving Capability.

With a battery capacity of 78 kWh, this Model 3 Long Range originally achieved up to 360 miles on a full charge, showing its superior long-distance capability compared to similar electric vehicles. The generous 542-litre boot offers a significant amount of storage, making it more practical than many other cars in its class. Charging at home using a 7kW charger takes around 12 hours for a full charge, while rapid public charging can replenish the battery from empty to 80% in as little as 26 minutes.

### Vehicle Features
