1991 Mitsubishi GTO Twin Turbo 3.0L v6 only 84447 miles. The car was last mot'd in September 2019 and has only done 200 miles until the oil pump went weak and been dry stored since. The engine has a slight knock but does and start and run. There has been lots of work and money spent on this car previous to this. The car got a new timing belt and water pump kit, new spark plugs and thermostat, new clutch kit, all brake pipes changed to new copper pipes, new braided flexi brake hoses all round. New brake pads and handbrake shoes, x4 new tyres, all fluids changed and a full respray in a proper spray booth. New track rods, track rod ends, new ball joints. There was no expense spared on the car. These cars are hard to find and are only going

up in price. Open to offers from serious buyers
